Publisher Description. Introduction to Art History is a college-level, introductory textbook that provides an overview of the culturally rich subject of Art History. Volume II covers art from 1400 through the present day. Boundless works with subject matter experts to select the best open educational resources available on the web, review the content for quality, and create introductory, college-level textbooks designed to meet the study needs of university students.

I got this book for a class I am taking. I got the loose leaf version knowing the 2 volume book would be too much to move around. I put it in 4 1" binders. Way more manageable. This is a wonderful book on art history. The paper is wonderful and the written history as good as it comes. I've used many art history books in my life.

Art History by Stokstad et al. is widely used as the textbook for introductory art history courses. From the start it's clear how this is what both the two volume and the abridged single volume editions are meant for. Keeping that in mind, I'd say it's not a bad textbook.

In this two volume set presented in a sleeve the books have a canvas like yellow binding (well made) and are a bit heavy but not unmanageable. Expect topics to be presented in the major parts of the world (Europe, Africa etc) in different time sequences. At the current prices (about \$10) you cannot do better.
