I bought the new Pioneer VSX-821-K 5.1 Home Theater Receiver, Glossy Black from Amazon and it is truly fantastic. BTW, I got a used one for only \$156.00 and it looked absolutely brand new when I got it only 5 days later and unpacked it from what looks like the original box and all the attachments and instruction manuals and everything.

The VSX-821's overall audio performance was more than acceptable, and it handled relatively high volume levels well. There were some missing sonic nuances that are present with my mid-priced Onkyo TX-NR609 AVR, such as greater depth, increased dynamic range, and a more delicate sonic signature.
